

# 42nd Annual MARCH for LIFE

## Washington, DC

### Thursday, January 22nd

Buses: Depart from SJA: 8:45 AM \ Return: 8:00 PM

Carefully consider attending this peaceful and inspiring demonstration. The U.S. Supreme Court in 1973 voted in the case of Roe v Wade to legalize the killing of innocent and helpless human beings while still in their mothers' wombs. They based this decision on not knowing when life begins. This absurdity has resulted in the deaths of millions of babies by abortion.

We know this is morally wrong but our laws permit this to continue. The clever use of the term "choice" has provided those so inclined to justify abortion under the mantle of a woman's "right to privacy". A pregnancy is viewed as a violation of this right to rid her body of this unwanted invader.

Our Political Representatives will speak out loudly about the many injustices perpetrated against humans worldwide but are ominously silent about the killing of the unborn. (Millions in this country alone). Unfortunately, this represents the position of the majority of their constituents. (Those that keep them in their elected positions). Speak up and do not be afraid to let them know how you feel and believe about this inconceivable and unconscionable injustice!

**COST: Adults \$25**

Students \$10

Can't go; Donations greatly appreciated
